If there is not enough clarity to describe the information being requested the Clerk will ask for more details to enable them to identify the information sought. The Clerk will make this timing clear in correspondence and if no satisfactory response is received within 2 months the request will be considered closed.

5 If it is not reasonably possible to provide the information within 20 working days of receipt of the request, the reasons for the delay and a target date shall be provided which must not exceed 40 working days.

#### **CHARGING**

The Council may make reasonable charge for provision of information in line with guidelines from the ICO, these include the costs of transferring the information to the application not limited to but also including photocopying, printing and postage.

When calculating the cost to respond to a request the Clerk will include staff time. However, only in rare instances do the guidelines permit this cost to be passed onto the Applicant, therefore this part of the calculated charge would only be applied in line with ICO guidelines.

The presence of copyright, including third party copyright does not prevent the disclosure and communication of information in response to FOIA and EIR requests nor does publishing information on a publication scheme.

The Council will make its charging policy clear and in advance.

The Council will adjust the cost if it is finally found to be below the charge advised but will not pass on the costs if it is found to be above the charge advised.

If the charge is not paid within 3 months of issuing the notice of fees the request will no longer need to be met.

The procedures will always follow ICO guidelines.
